

Well, its November! And we all have made the thru another year of gold prospecting, and hopefully enough gold has been found to add to all your gold pokes. Last meeting, we had 49 attending. Totally Awesome! Gary our Ticket Drawing Officer has returned to his home. but still must wear a back brace so he can finish healing. We will see him at the Christmas Party. More gold bags have been stocked up the upcoming November meeting. This will be your last chance to get items from the Hats & Shirts table for the year. For the new and older members. Remember, at the Christmas Party the table is not set up since it allows the other drawings being offered and the cost of the dinner to be affordable. Put more spending towards the drawings. PLEASE REMEMBER THAT THE CHRISTMAS PARTY STARTS A 6:00 PM AND NOT THE NORMAL TIME OF 7:00 PM. PLEASE MAKE A NOTE ON YOU CALENDERS OF THIS.

THANK YOU! The cost at the door per adult is still \$10.00 a head and children 11 and under are free. There will be various drawings that will be held that night. The grand prize table with all of the high-end gifts, and with a lot of gold bags that could be won. 20 \$20. bags and 10 \$40. bags will be offered. There will also be around a 5grm nugget that will be there also. Some metal detectors and other very nice item could be won. The other awesome drawing will be that gold cabbed pendent with nugget attached, very beautiful gold quartz specimen, and the other a nice candlestick from the late 1800s. And the last one will be the fourth three month special ticket drawing

that has been going on the whole year. The last chance to sign up for the Christmas Party will be this November meeting concluding at the end of November. This helps in getting the right count to make sure that enough food has been ordered. The same caterers that have provided the meal last year and, in the past, will be doing the honors once again. Totally Awesome Food! For the program on Tuesday the 19th of this month, will be Jim Davis from the Utah Geological Survey. And the title of the presentation that will be given is "THE GEOLOGY OF THE WASATCH FRONT." Hopefully this will give us a better understanding of the geology that is there and maybe finding gold right here in our very front yards. With this speaker it has made it a 9 for 11 on speakers for the year. It's been a good year for finding them! Well, that it for now and lets still enjoy the nicer weather that's been hanging around. and as always if we have missed something will pic it up at the meeting.

THANKS AGAIN!

Phil
